## TR-202 TR-202 200mm Single Cold Tape Cutting Machine - Product Datasheet

|                       |                                                                                                                          |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------|
| Specifications        |                                                                                                                          |
| Power                 | AC220V/50HZ,                                                                                                             |
| Application           | Automatic Wire and Tape Cutting Machine                                                                                  |
| Feature               | Stable Performance                                                                                                       |
| Warranty              | 1year                                                                                                                    |
| Contact               | Lily 0086-13715588365                                                                                                    |
| Equipment-name        | TR-202 Automatic 200mm Single Cooling Tape Cutting Machine                                                               |
| Power-supply          | AC220V 50Hz                                                                                                              |
| Size-&-weight         | 560x415x410mm??28kg                                                                                                      |
| Accuracy              | 0.01mm (depending on material)                                                                                           |
| Cutting-length        | 1?9999.9mm                                                                                                               |
| Cutting-width         | 1?200mm (wider can be customized)                                                                                        |
| Cutting-speed         | 700mm/s                                                                                                                  |
| Function              | Tube, tape and other items of the chase color fixed length cutting                                                       |
| Characteristic        | Wide application range, supporting multiple products, powerful functions, adjustable width, automatic feeding            |
| Price                 | FOB - confirmed at quotation                                                                                             |
| Lead time             | Confirmed at quotation                                                                                                   |
| Key Features          |                                                                                                                          |
| -                     | Simple keypad operation. Cutting length & speed are freely adjustable for one?touch operation.                           |
| -                     | Max. cutting width: 200mm. Precision up to -0.01mm, delivering smooth, burr?free cuts.                                   |
| -                     | Cares labels, zippers, hoses, shoelaces and more. Optional hot?knife unit seals woven ribbons to prevent fraying.        |
| -                     | High?precision sensor detects raw materials. Auto?alarm & stop?function avoid empty?cutting and material waste.          |
| -                     | Sharp, wear?resistant cutter guarantees neat cuts over long?time operation.                                              |
| -                     | Allows multi?piece simultaneous cutting to boost productivity. Built?in cooling fan ensures stable long?run performance. |
| Commercial & Delivery |                                                                                                                          |
| Certification         | CE-certified machinery, ISO9001 factory                                                                                  |
| Quality               | 100% run-in tested before shipment; test video on request                                                                |
| Warranty              | 12 months standard; spare parts support                                                                                  |
| Payment               | T/T 30% deposit, 70% before shipment                                                                                     |
| Packing               | Export-grade wooden case / carton, QC photos before packing                                                              |
| Shipping              | Sea, air or express - tracking provided                                                                                  |

Note: specifications are indicative and confirmed with your order. Custom configurations available.
