

TR-410S TR-410S Automatic Iron Ring Crimping Machine - Product Datasheet

|                       |                                                                                                 |
|-----------------------|-------------------------------------------------------------------------------------------------|
| Specifications        |                                                                                                 |
| Power                 | 220V                                                                                            |
| Air-pressure          | 0.5~0.7MPa                                                                                      |
| Production-efficiency | 2700~3000 pieces/hour                                                                           |
| Overall-dimensions    | 600x600x1450mm                                                                                  |
| Contact               | CoCo +86 18666170785                                                                            |
| Price                 | FOB - confirmed at quotation                                                                    |
| Lead time             | Confirmed at quotation                                                                          |
| Key Features          |                                                                                                 |
| -                     | Equipment Name: TR-410S Automatic Iron Ring Crimping Machine                                    |
| -                     | Production Efficiency: 2700~3000 pieces/hour                                                    |
| -                     | Touchscreen for debugging, simple operation.                                                    |
| -                     | Tight engagement after crimping, no glue separation, no slipping.                               |
| -                     | High production efficiency: one crimping in 2 seconds, stable performance.                      |
| -                     | Multi-purpose machine: processes a wide variety of wire types, one machine can crimp multiple t |
| Commercial & Delivery |                                                                                                 |
| Certification         | CE-certified machinery, ISO9001 factory                                                         |
| Quality               | 100% run-in tested before shipment; test video on request                                       |
| Warranty              | 12 months standard; spare parts support                                                         |
| Payment               | T/T 30% deposit, 70% before shipment                                                            |
| Packing               | Export-grade wooden case / carton, QC photos before packing                                     |
| Shipping              | Sea, air or express - tracking provided                                                         |
