

TR-535C Corrugated Pipe Punching & Cutting Machine - Product Datasheet

Positioning: Best for punching and cutting corrugated pipes in wire harness production.

Specifications

Process	Corrugated Pipe Punching & Cutting Machine
Control	PLC / touch-screen control
Terminal / material compatibility	Corrugated Pipe Punching & Cutting Machine (see quotation for your wire/terminal spec)
Price	Quote on request
Lead time	Standard models in stock; customised machines 7-15 days, confirmed at quotation
Key Features	- Optional configurations: MES system, IoT system, fixed-point inkjet marking, pipe slitting function
	- User-friendly system with intuitive operation via 7-inch color touch screen.
	- Modular interfaces for easy connection of accessories and peripheral equipment.
	- Modular design supports future upgrades.
	- A full range of optional accessories and customizable systems.
	- Non-standard customization is available for processing special pipes.

Commercial & Delivery

Certification	CE-certified machinery, ISO9001 factory
Quality	100% run-in tested before shipment; test video on request
Warranty	12 months standard; spare parts support
Payment	T/T 30% deposit, 70% before shipment
Packing	Export-grade wooden case / carton, QC photos before packing
Shipping	Sea, air or express - tracking provided

Note: specifications are indicative and confirmed with your order. Custom configurations available.
