

TR-850C TR-850C Automatic Tape Winding Machine - Product Datasheet

|                       |                                                                                                   |
|-----------------------|---------------------------------------------------------------------------------------------------|
| Specifications        |                                                                                                   |
| Power                 | AC220V/50HZ,                                                                                      |
| Operating-mode        | Touch Screen                                                                                      |
| Power-supply          | AC220V/DC24V                                                                                      |
| Warranty              | 1year                                                                                             |
| Wire-diameter         | 3-10MM                                                                                            |
| Price                 | FOB - confirmed at quotation                                                                      |
| Lead time             | Confirmed at quotation                                                                            |
| Key Features          |                                                                                                   |
| -                     | Effective Winding Stroke: within 1 meter                                                          |
| -                     | Hole Size of Tape: ?38 (other sizes ?32, ?76 ....) (need to be informed in advance)               |
| -                     | Applicable tape: PVC, cloth velvet, cloth-based tape, high-temperature tape, more suitable for mi |
| -                     | Voltage: AC220V/DC24V 50/60HZ 110V Optional:                                                      |
| -                     | Medium speed of the machine: 15 seconds / 1 meter line Full winding The first section of the stay |
| -                     | Length, width, and height: 1830 * 600 * 1080mm                                                    |
| Commercial & Delivery |                                                                                                   |
| Certification         | CE-certified machinery, ISO9001 factory                                                           |
| Quality               | 100% run-in tested before shipment; test video on request                                         |
| Warranty              | 12 months standard; spare parts support                                                           |
| Payment               | T/T 30% deposit, 70% before shipment                                                              |
| Packing               | Export-grade wooden case / carton, QC photos before packing                                       |
| Shipping              | Sea, air or express - tracking provided                                                           |
