

TR-JC21 TR-JC21 Automatic Flat Wire Tape Winding Machine - Product Data Specifications

|                       |                                                                                                   |
|-----------------------|---------------------------------------------------------------------------------------------------|
| Power                 | AC220V/50HZ, 300W                                                                                 |
| Application           | Cable Making Industry                                                                             |
| Feature               | Stable Performance                                                                                |
| Function              | Automatic Tape Winding Machine                                                                    |
| Warranty              | 1year                                                                                             |
| Tape-type             | PVC,PET,textured paper,Duct tape,Acetate Tape                                                     |
| Price                 | FOB - confirmed at quotation                                                                      |
| Lead time             | Confirmed at quotation                                                                            |
| Key Features          | - TR-JC21 Automatic Flat Wire Tape Winding Machine                                                |
|                       | - Equipment Name: TR-JC21 Semi-Automatic Flat Tape Wrapping Machine                               |
|                       | - Corresponding work: Single-point winding of a single hard pipe or hard wire.                    |
|                       | - Tape material: PVC, acetate tape, flannel, etc.                                                 |
|                       | - speed: 3 seconds/cycle (depending on manual proficiency)                                        |
|                       | - Distance to end position: Distance between the edge of the tape and the most end of the workpie |
| Commercial & Delivery |                                                                                                   |
| Certification         | CE-certified machinery, ISO9001 factory                                                           |
| Quality               | 100% run-in tested before shipment; test video on request                                         |
| Warranty              | 12 months standard; spare parts support                                                           |
| Payment               | T/T 30% deposit, 70% before shipment                                                              |
| Packing               | Export-grade wooden case / carton, QC photos before packing                                       |
| Shipping              | Sea, air or express - tracking provided                                                           |
