

TR-K9GZ TR-K9GZ Two Axis Servo Copper Tape Machine - Product Datasheet Specifications

Power	AC220V/50HZ,
Feature	Stable Performance
Warranty	1year
Contact	Lily 0086-13715588365
Price	FOB - confirmed at quotation
Lead time	Confirmed at quotation

Key Features

- 1. Copper belt machine is driven by servo motor, parameters in the machine touchscreen to adjust
- 2. Moulds are customised according to customer's product materials and requirements.
- 3. The copper belt is driven by stepping motor, and the copper belt is conveyed by the module screw
- 4. Copper belt machine crimping principle: automatic conveyor copper belt structure, copper belt
- 5. Cold pressure crimping method, instead of the traditional soldering process, no cold welding, a
- 6. This machine can be equipped with pressure detection system and mould monitoring system according

Commercial & Delivery

Certification	CE-certified machinery, ISO9001 factory
Quality	100% run-in tested before shipment; test video on request
Warranty	12 months standard; spare parts support
Payment	T/T 30% deposit, 70% before shipment
Packing	Export-grade wooden case / carton, QC photos before packing
Shipping	Sea, air or express - tracking provided
